#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

- 1) Responsive to communication(s) filed on \_\_\_\_\_.  
 2a) This action is **FINAL**.                    2b) This action is non-final.

Art Unit: 2887

1. The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.
2. Claims 1-30 are objected to because of the following informalities: Applicant currently numbers the claims by placing individual claim numbers in brackets. However, brackets are reserved for removal of subject matter and as such the claims are not currently numbered. It is suggested that applicant amend the claims clearly reciting the claim number such as "Claim 1. ....". Appropriate correction is required.
3. Claims 1-30 would be allowable over the prior art of record if rewritten to overcome the objection above.
4. The following is a statement of reasons for the indication of allowable subject matter: the prior art of record fails to teach or fairly suggest to one of ordinary skill in the art at the time of the invention, in conjunction with all the other limitations of the claims; regarding claims 1-5,7,9 and 10: the sperm life plate rotating on the axis, regarding claims 6 and 8: the gestational ultrasound landmark probability curves, regarding claim 11: the third scale wherein the markers represent a percent calculation of likelihood of fetus survival upon delivery at a corresponding gestational age, regarding claim 12: the scale wherein the markers represent cervix length, regarding claim 13: the second scale wherein the markers represent a percent likelihood of ongoing pregnancy for an expecting mother under an age of forty years, and a third scale wherein the markers represent a percent likelihood of ongoing

pregnancy for an expecting mother over an age of forty years,  
regarding claim 14: the first scale wherein the markers represent the percent likelihood  
of IVF pregnancy per cycle and a second scale wherein the markers represent a  
percent likelihood of COH-IUI pregnancy per cycle,  
regarding claim 15, the first scale wherein the markers represent a likelihood of Down's  
syndrome corresponding to a particular age of a mother, and a second scale wherein  
the markers represent a likelihood of Aneuploid corresponding to a particular age of a  
mother,  
regarding claims 16-19: the evenly spaced dates spanning at least nine months and a  
second scale marked with landmarks of interest with respect to human gestation,  
regarding claim 20 and 21; the first plate having a scale bearing markings of height or  
weight disposed in a logarithmic spacing and second plate having a scale representing  
the other of height or weight of a patient, the first plate further having body mass index  
markings,  
regarding claims 22-29, the first plate having a scale bearing markings representing the  
biparietal diameter or the abdominal circumference and a second plate having a scale  
bearing markings representing the other of the biparietal diameter or the abdominal  
circumference, and  
regarding claims 30 and 31: the first plate having a scale indicative of a level of #hCG.

5. This application is in condition for allowance except for the above formal matters.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
